PREFATORY NOTE.

This list covers the thirty operas from which the repertory of the Boston Opera Company will be selected. It has been arranged by subjects rather than by authors in the hope that the reader may find the desired information more quickly. The operas are given alphabetically by titles. Under the subject Biography, the section devoted to composers consists of single biographies, and these are listed under the name of the subject of the biography; the other subdivisions under this heading are arranged by authors.

Brief plots of the operas will be found in the various collections of stories of the operas arranged under that heading by authors. Further material on a particular opera may often be found in a biography of the composer.

Starred books are restricted from circulation, and books whose shelf-number is preceded by **M, belonging to the Allen A. Brown Collection, are for reference only, and may not be taken from the room. In most of the scores in the Brown Collection are inserted programs, portraits, reviews, etc., which often furnish all the information concerning a particular opera that the reader desires.

During the opera season the circulating scores and all other books in this list are issued for *four days only*. They will be issued only on the regular borrower's cards, not on teacher's or special cards.

The list was prepared by Miss Barbara Duncan, in charge of the Allen A. Brown Collection.
